

Charities and not-for-profit sector

Third sector

A fresh approach to helping you deal with the financial aspects of running your charity.

The dynamic, competitive and highly regulated environment you operate in presents a number of unique challenges. Our national charity and not-for-profit team has a genuine understanding of the sector and the relevant expertise to help you overcome its challenges and exploit the opportunities available to you.

We recognise that while your primary focus will be on those who benefit from your services, you have to manage tightly controlled finances that are then transparently reported in the public domain.

With increased competition for grant funding and charitable giving, a greater emphasis on making your accounts more accessible, and an increased burden of compliance, your charity needs to be managed better than ever.

MAXIMISING EFFICIENCY THROUGH OUR EXPERIENCE

We have decades of experience supporting clients in the charity and not-for-profit sector, and helping them deal with the various financial aspects related to the sector. Our clients include a wide range of charity and not-for-profit organisations, from local charities of varying sizes to major national organisations.

Areas of our particular expertise include advising grant making foundations, children's charities, humanitarian charities, learning providers and educational trusts, medical and health charities, academy schools, trade unions and public sector bodies.
