OUR SERVICES TO THE HOSPITALITY AND LEISURE SECTOR

We have helped many of our hospitality clients to make long term and positive changes to their businesses.

UHY provided a solution to the tight deadline, were responsive and showed an excellent understanding of the operations of hotels and the hospitality sector in general.

Our specialist hospitality accountants provide a wide range of advisory and support services to hotels, restaurants, pubs and bars and other businesses operating in food and beverage.

The UK hospitality sector is thriving and is now the fourth largest industry in the UK, creating one in five new jobs since 2010 according to the British Hospitality Association (BHA).

But it is not all smooth sailing. Brexit has brought with it greater uncertainty and businesses in the industry are facing a growing number of challenges, from staff sourcing issues, fluctuations in exchange rates and increases in the minimum wage to the ever present terrorist threat. Finding the right location at a competitive price is an increasing challenge.

Having an adviser who understands these issues is reassuring. In such a fast-moving, people driven industry, we understand how difficult it can be to keep abreast of the latest developments while ensuring the everyday running of your business is as efficient as possible.

We also have international capabilities through our association with our international network, UHY, with offices in all of the world's major tourist centres.
